INTERNET/SOCIAL MEDIA SAFETY AND DIGITAL CITIZENSHIP FOR PARENTS

Education is the first step in keeping our kids safer in this technology-driven world. It is not uncommon that our children know more about the workings of the Internet and Social Networking than we as parents do. This presentation is designed to educate even the most computer illiterate parent. Knowledge and the understanding and application of that knowledge is power. Our presentation will provide the knowledge and information, based upon academically peer-reviewed research that parents need to know about the Internet and Social Networking to help keep their children safer. To date, thousands of parents (and growing) in British Columbia have heard our very unique "pro-active" message.

Some Of The Topics Covered Include

- ★What is the Internet and Social Networking
- ★What are our kids doing on-line
