4 pm, 5 pm, 6 pm, 7 pm

one hour sessions \$25/hour

Surrey: Newton Elementary, 13359—81 Avenue

Langley: Douglas Park School, 5409—206 Street

REAL READING TUTORING

encourages an interest in reading for enjoyment while improving the literacy skills of students who are struggling with reading, spelling, comprehension and/or writing. A trained tutor works one on one with the student following an individualized learning plan and setting specific goals for the student.

- Specialized programs recommended for learning disabilities, attention deficit disorder or any child struggling with learning
- Caring and empathetic teachers and tutors
- Free assessment, daily written feedback
- Affordable, lower fees; subsidies available
- Registered Charity; **We are here to help!**

REAL MATH TUTORING

is intentional learning in a playful context. Students work in a one on one situation to become aware of, evaluate, and set goals for their learning in math. Based on current research, students are prompted to use manipulatives or "tools" in a playful manner to practice and celebrate their successes on their individualized math goals.
